

Legislative

- Pass bill to reverse requirement to landfill asphalt shingles: 5 green, 4 blue
- Require use of [recycled] aggregates in road construction/maintenance: 9 green, 14 blue

Non-legislative

- Update building codes and create/update design guidelines with an emphasis on reuse: 9 green, 11 blue
-

C&D Policy Roadmap/Toolkit

- Webinar/Roadshow (on track)
 - Refocusing policy components → Need to diversify stakeholders
 - Material bans
 - Reduction of materials rather than heavy focus on end market
 - Location-dependent material acceptance
 - Construction materials that are more beneficial for location → design policy
 - Diversion goals rather than material bans
 - Troubleshoot assessing/investigating adhesives
-

Legislative

- Construction is accountable for deconstruction → thoughtful construction. (no dots)
- Policy and Infrastructure tiered ___% of recycled content for buildings and construction: 2 blue, 3 green

Non-legislative

- Getting more counties to adopt/adjust ordinances to support C&D reuse: 14 green, 11 blue
 - Permitting revisions to better support the processing of C&D materials at the local level: 4 green, 6 blue
-

- C&D Toolkit for Local Govs
 - CEDC Partnership with shingle opportunities
 - Funding/grants for C&D
-

1. Education
2. Change behavior
3. Funding solutions for contractors and developers
4. Partnerships with haulers = incentives

5. Building ordinances to allow for reuse (i.e. City of Boulder)

-
1. Circular Economy Development Center: Year one down, year two i.e. shingles.
 2. Local govs have adopted C&D ordinances.
 3. No landfill bans for C&D
 4. Realistic implementation strategy or expectations for haulers and contractors
-
